RESPONSE AMENDMENT

In response to the April 1, 1997 Office Action, please amend the claims as follows:

30. (Once Amended) A teleconferencing system for conducting a teleconference between first and second locations, the system comprising:

- (a) a plurality of workstations at the first location and at least one workstation at the second location, each workstation being associated with at least a participant and having a monitor and participant audio and video capture and reproduction capabilities;
- (b) an AV path for carrying AV signals representing participant video images and spoken audio among the workstations;
- (c) a first video mosaic generator associated with the first location and configured to
